

Welcome to the Analytics track

OHDSI-UK 2026 Training

2026-06-22

Welcome to the OHDSI-UK training

Aims of the analytics track

By the end of the training:

- Be able to conduct descriptive analyses using R with data in the OMOP CDM format
- Understand how to approach writing bespoke code for complex studies
- Know where to look for help

What to expect

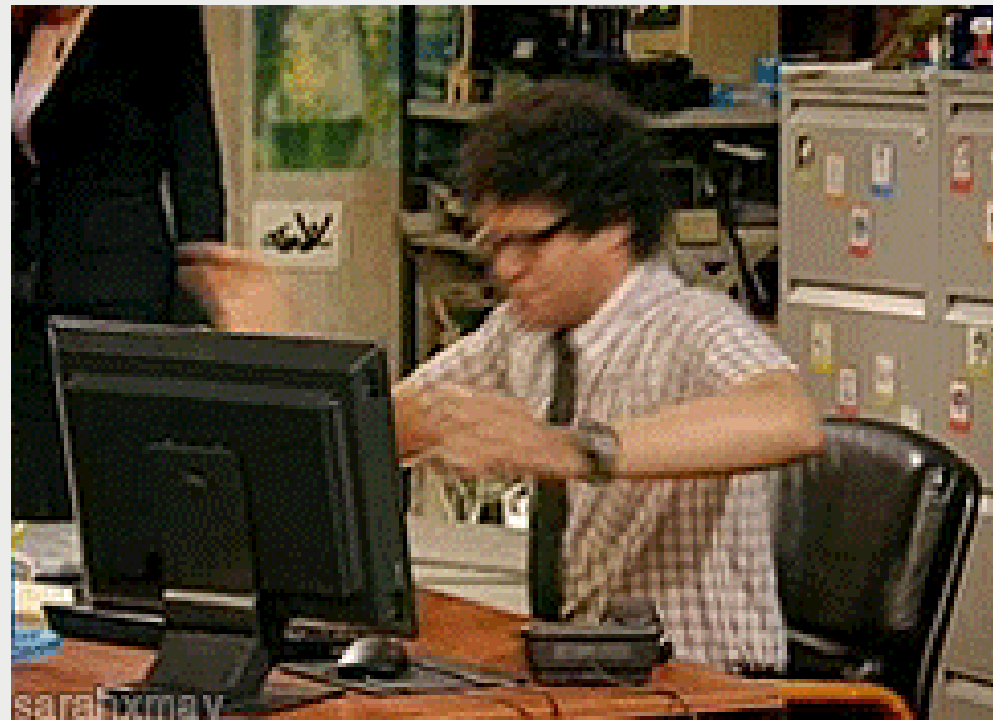

What to expect

- Quarto presentations - most presentations correspond to an R package that works with data in the OMOP CDM format.
- “Your Turn” exercises - during presentations where you can practice using the package (solutions will be on the next slide, but first try without looking at these!)
- General practical - time to apply what you have learned during the training.

Post-It notes

- Green - all good, no code currently running
- Yellow - code running
- Red - help me!

Set up

USB

- Contains the datasets you will need for this week
- Copy the *Analytics track* folder to your laptop
- Open the *Analytics track* project with RStudio
- Copy the databases to the *Back up* folder
- Run the **Setup.R** script in the *Your turn* folder

Schedule - Monday

Time	Session
13.30 - 14.30	Introduction to OMOP and CDMConnector
14.30 - 15.00	<i>Coffee break</i>
15.00 - 15.45	Characterising a database with OmopSketch
15.45 - 16.30	General practical

Schedule - Tuesday

Time	Session
13.30 - 14.30	Creating cohorts with CohortConstructor
14.30 - 15.00	<i>Coffee break</i>
15.00 - 15.45	Phenotype diagnostics with PhenotypeR
15.45 - 16.30	General practical

Schedule - Wednesday

Time	Session
13.30 - 14.30	Add patient level data with PatientProfiles
14.30 - 15.00	<i>Coffee break</i>
15.00 - 15.45	Characterising cohorts with CohortCharacteristics
15.45 - 16.30	General practical

Schedule - Thursday

Time	Session
13:30 - 14:30	Conducting Drug Utilisation studies with DrugUtilisation
14:30 - 15:00	<i>Coffee break</i>
15.00 - 15.45	Estimate incidence and prevalence with IncidencePrevalence
15:45 - 16:30	General practical

Introductions

- What's your name?
- Where do you work? What is your role?
- Have you used R before?
- Have you worked with OMOP CDM data before?
- What do you want to get from this training?

Materials

All training materials are available from the **presentations** and **downloadable PDFs** on this website.
